

NEW REPAIR & SYSTEM TEST CAPABILITY

Proportion – Air Electro-Pneumatic Control Valves

Technical Bulletin

K+S Lawton now has the capability to repair, calibrate, and fully test the BB1, BB2, QB1T, AND QB2T series control valves. These valves are electro-pneumatic pressure regulators that can provide precise pressure proportional to electrical input. The BB1 and QB1T uses a single loop control process. The BB2 and QB2T use a double loop control process.

Proportion Air Valve Test Stand

12 Month In-Service Warranty

All Units Are System Tested

No Charge Evaluation
